Quest wins Fast 50 Award 2nd Year Running

Quest Retail Technology Pty Ltd has achieved listing in the prestigious 2005 Deloitte Technology Fast 50 awards for the 2nd year running.

The Deloitte Technology Fast 50 ranks the fastest growing technology companies, public or private, based on percentage revenue growth over a three year period (2003 to 2005).

Quest Chairman and Owner, David Brown said, "Our continued growth is a result of our willingness to look outside the square for technology opportunities and enhancements to add value to our products"

David Brown went on to say, "We will not rest on our success and realise that there are always new opportunities because of changing requirements and emerging technologies that can be applied to the hospitality market for the benefit of our customers'.

"Our strategy of providing cost effective, market driven POS solutions continues to be very effective for us and our target is to continue growing in the 30-40% per annum range. We are certainly on track for the next 12 months" he said.

Deloitte Growth Solutions partner, Ms Julia Bickerstaff, says the growth of Quest has been astounding. "Managing growth is challenging for many organisations, but Quest has achieved exceptional growth during a downturn in the technology sector."

"With the global technology sector showing more prosperous signs than the last three years, the future is looking even brighter for Quest", she said

Deloitte is one of Australia's leading professional services firms and provides audit, tax, consulting, and financial advisory services through around 3000 people. Focused on the creation of value and growth, and known as an employer of choice for innovative human resources programs, they are dedicated to helping their clients and their people excel.
